

Oguz GUL

Date of birth: 28/11/1995 | **Nationality:** Turkish | **Gender:** Male | **Phone number:** (+90) 5424609247 (Mobile) | **Email address:** ogzgul06@gmail.com | **LinkedIn:** [linkedin.com/in/oguz-gul/](https://www.linkedin.com/in/oguz-gul/) | **GitHub:** github.com/oguzgul06 | **Address:** 6820, Ankara, Türkiye (Home)

ABOUT ME

Cloud & DevOps Engineer and Frontend Developer with 3+ years of professional experience in software development and cloud infrastructure. Skilled in designing and deploying scalable applications, CI/CD automation, and modern web frameworks (Angular, Vue.js, React). Experienced in both backend and frontend development with strong expertise in cloud-native services, container orchestration, and DevOps practices.

WORK EXPERIENCE

 **HUAWEI – ANKARA, TÜRKİYE**

CLOUD & DEV/OPS ENGINEER – 01/07/2025 – CURRENT

1. I am creating a project with Huawei Cloud service structures so far.
2. I am managing servers on an HCS project.
3. Setting up cloud computing & networking structures with Cloud Services (ECS-ELB-CCE-CI/CD pipeline) and monitoring developments with cloud services and ensuring continuity.
4. Using Huawei CodeArts, an end-to-end CI/CD pipeline was automated for a VueJS web application; this process involved creating a code repository on CodeHub and writing a Dockerfile to build the application image served by Nginx. Kubernetes structures (Deployment and Services (CCE)) were prepared, and a pipeline was designed to transfer the application structure to SWR (Software Repository for Container).

Huawei | Cloud & Dev/Ops Engineer | July 2025 - Present

- Configured comprehensive Virtual Private Cloud (VPC) structures and subnets to meet the fundamental infrastructure needs of multiple projects on Huawei Cloud.
- Deployed and managed Huawei ECS (Elastic Cloud Server) virtual machines, utilizing VPC Peering and Route Tables for secure communication between different VPCs.
- Implemented Elastic Load Balancer (ELB) and Auto Scaling (AS) services to distribute incoming application traffic and optimize performance.
- Defined Security Group rules and NAT Gateway policies (DNAT, SNAT) to ensure necessary network communication for application components.
- Created MySQL and PostgreSQL databases on Huawei Cloud RDS, configuring them for secure connectivity from ECS instances.
- Attached EVS (Elastic Volume Service) disks to ECS instances and set up SFS (Scalable File Service) and OBS (Object Storage Service) buckets for data storage.
- Designed and implemented a containerized architecture for an e-commerce application using Huawei CCE (Cloud Container Engine) for constantly running services (e.g., frontend, backend API) and CCI (Cloud Container Instance) for event-driven, ephemeral jobs (e.g., image processing, email notifications).
- Automated the end-to-end CI/CD pipeline for a Vue.js web application using Huawei CodeArts service; this involved creating a code repository on CodeHub, writing a Dockerfile to build the application image served with Nginx, preparing Kubernetes manifests (Deployment and Service), and designing a pipeline to push the image to SWR (Software Repository for Container).
- Performed physical disk and port change operations within cabinets in a HCS (Huawei Cloud Stack) environment.

 **HUAWEI – ANKARA, TÜRKİYE**

FRONTEND DEVELOPER – 19/02/2024 – 01/07/2025

1. Utilized RxJS tools in Angular for a project over a two-month period.
2. I prepared a document with RxJS and Observable structures and created an architectural structure for the project to make it more understandable afterwards.
3. Used Vue3 and TypeScript for developing an extension app for an one year.

Huawei | Frontend Developer | Feb 2024 - July 2025

KooMap: Developed using Angular, incorporating RxJS with an Observable structure and interacting with a RESTful API.

Database-Helper: Developed an extension application using Vue 3 with Vuex and implemented vue-i18n for internationalization.

EBG-Project: Developed migration and feature requirement with xtpl framework

🏢 **GALILEO HEALTHCARE TECHNOLOGIES** – ANKARA, TÜRKİYE

FRONTEND DEVELOPER – 25/01/2022 – 15/02/2024

1. Worked as a frontend developer for two years.

2. Utilized the Angular framework with reactive forms and RxJS extensively.

3. Employed Nest.js and pure Java for backend projects.

4. Consistently worked with TypeScript and the latest version of Angular.

5. Used SpringBoot for backend projects.

6. I actively contributed to DevOps processes in projects; I managed the automated testing, build, and deployment processes of applications using CI/CD pipelines.

Galileo Healthcare Technologies | Frontend Developer | 2 Years

Wound Procedure System: Developed using Angular, incorporating RxJS, Sass, Tailwind, and Angular lifecycle hooks.

Nuclear Medicine Clinical System: Implemented with RxJS.

Database Systems: Worked with the Spring framework for backend database systems.

🏢 **ALOTECH/PATIKA FULLSTACK BOOTCAMP** – İSTANBUL, TÜRKİYE

BOOTCAMP TRAINEE – 15/10/2021 – 10/12/2021

1. Learned full-stack technologies like Node.js, React, and Django over a two-month period.

2. React and Node.js for projects during a bootcamp.

🏢 **TURKISH ELECTRICITY DISTRIBUTION CORPORATION** – ANKARA, TÜRKİYE

ENGINEER INTERN – 01/08/2020 – 01/09/2020

1. Research and generate about of engineer work prenciable

2. I did project development on .NET MVC

🏢 **YCP INFORMATION TECHNOLOGIES EDUCATION ENERGY CONSULTING AND HEALTH SERVICES** – İSTANBUL, TÜRKİYE

ARGE INTERN – 01/07/2018 – 01/08/2018

1. During this one month internship period, I did project development on .NET and MVC

2. I have used .NET technology with C# on the Visual Studio IDE

● **EDUCATION AND TRAINING**

15/09/2014 – 25/06/2021 Ankara, Türkiye

COMPUTER ENGINEER Cankaya University

Website <https://www.cankaya.edu.tr/>

20/07/2015 – 28/08/2015 London, United Kingdom

LANGUAGE STUDENT Centre of English Studies

Website <https://www.ces-schools.com/english-schools/ces-london>

● **LANGUAGE SKILLS**

Mother tongue(s): **TURKISH**

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	B2	B2	B2	B2	B2

Levels: A1 and A2: Basic user; B1 and B2: Independent user; C1 and C2: Proficient user

SKILLS

Web Development Framework & Tools

Angular | Vue.js (2 &3) | ReactJS(ES6/ES7/ES8) | RxJS (Observable/subscribe/pipe) | Redux | CSS(Sass/Bootstrap/Material/Tailwind) | Vuex | Figma

Programing Skills

Typescript | JavaScript | JAVA | Object Oriented Programming

Backend

Spring(Spring boot, Spring MVC, Spring data, ...) | NodeJs (ExpressJs) | NestJS | Firebase | PostgreSQL | MySQL

Dev/Ops & Version Control System

Devops: Docker, Jenkins | Github Actions, GitLab, Bitbucket | GIT | Jira | Agile/Scrum | CI/CD (Gitlab CI, testing) | Kubernetes | Cloud development kit (CDK) | Infrastructure as Code (Terraform) | Linux | Ubuntu
